# Custom Product Design

## Design • Modification • Development

### Designing custom products is EASY with i•mark®!

*With over 27 years of experience our design team will put its proven expertise and creativity to work for you! Whether you need an original custom product, or a modification to an existing i•mark® product, we have the solution for your next custom project.*

1. Supply a drawing, description or sample indicating desired dimensions, special features or modifications.
2. To request a modification of an existing i-mark product, provide the item number with your requested changes.
3. Provide desired quantity needed.
4. Provide project budget, so our bid will reflect appropriate construction, materials, and options.
5. Indicate needed specifications, special colors, materials, and hardware to enable bid proposal accuracy.
6. Outline desired delivery dates for proof and product.

### Providing service with innovation, quality, value & integrity!
